Section 04: FIRST AID MEASURES

- Inhalation:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
- Skin:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.
- Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.
- Ingestion:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
- Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

Section 05: FIRE FIGHTING MEASURES

- Flash Point (PMCC):** 130°F (54.4°C) PMCC
- Flammability:** Combustible
- Autoignition Temp.:** N/D
- Extinguishing media:** Dry chemical, water, foam, CO₂
- Special fire fighting procedures:** Treat as a combustible liquid. Cool fire exposed containers with spray, must wear MSHA/NIOSH approved, self-contained breathing apparatus.
- Unusual fire & explosion hazard:** Explosive mixtures can form with air. Combustion products are toxic. Solvents vapor can travel to an ignition source and flash back.

Section 06: ACCIDENTAL RELEASE MEASURES

- Spill/leak procedure:** Danger. Corrosive material. Product is combustible. Remove all sources of ignition and ground all equipment before use. Floor may become slippery. Wear appropriate protective gear and respiratory protection where mist or vapors of unknown concentration may be generated. Dike and contain spill with inert material (sand, earth, ...) and transfer the liquid and solid separately to containers for recovery or disposal. Keep spill out of sewers and open bodies of water.

Section 07: HANDLING & STORAGE

- Handling:** Avoid contact with eyes. Avoid breathing vapors or mist of this product. Wash thoroughly after handling. As with all chemicals, good industrial hygiene practices should be followed when handling this material.
- Storage:** Do not store on side. Avoid creasing or impacting of side walls. Keep from freezing and away from high heat, flames or other ignition sources.
